1. Introduction

City of Edinburgh Council has assessed the quality of its parks on an annual basis since 2008 (except in 2020) using Green Flag Award field criteria with the results used to inform strategies and performance indicators, evidence improvement as well as provide parks management with information that should be used to better improve the quality of all its parks.

2. Methodology

2.1. Green Flag Forum

The Green Flag Forum consists of parks management, site managers, key officers and a representative from the greenspace forum that oversees the Park Quality Assessment (PQA) and Edinburgh's Green Flag Award (GFA) programmes.

The forum meets in November each year to discuss the recent PQA and GFA results with a view to identifying local and citywide park improvements. It also agrees on the methodology to be used in the next round of assessments, making changes where necessary but ensuring year on year analysis is retained, sets targets for the Edinburgh Minimum Standard and identifies and approves sites for Green Flag Award submission.

2.2. Green Flag Award

Green Flag Award is the national and fast becoming, international standard for parks and green spaces. The award scheme began in 1996 as a means of recognising and rewarding the best green spaces in the country. It is also seen as a way of encouraging others to achieve the same high environmental standards, creating a benchmark of excellence in recreational green areas.

The scheme is run under UK Government licence by Keep Britain Tidy who use regional operators to deliver the scheme in other countries. In Scotland the scheme is managed by Keep Scotland Beautiful.

2.3. Criteria Used

Whilst the Green Flag Award contains both desk and field assessments, the Park Quality Assessment programme is limited to field assessments carried out by Council officers, external partners and members of the community trained in assessing parks using Green Flag Award field criteria. Thus, the final 'Parks Quality Score' (PQS) should not be read as the site's score against the Green Flag Award but should be used for indicative purposes only.

Criteria that cannot be judged during a site visit are assessed as a desktop exercise by the site manager using guidance set by the Green Flag Forum. This approach provides a fuller view of a park's quality.

Listed below are the formal categories and criteria as set out in the 'Raising the Standard' manual.

A Welcoming Park

- Welcoming
- Good and safe access
- Signage
- Equal access for all

Conservation and Heritage

- Management of natural features, wild fauna and flora (Biodiversity)
- Conservation of landscape features (*Desktop Assessment*)
- Conservation of buildings and structures

Healthy, Safe and Secure

- Appropriate levels of quality facilities
- Safe equipment & facilities
- Personal security in park
- Control of dogs / fouling.

Well Maintained and Clean

- Litter and waste management
- Horticultural maintenance
- Arboricultural maintenance
- Buildings & infrastructure maintenance
- Equipment maintenance

Environmental Management

- Managing Environmental Impact (*Desktop Assessment*)
- Waste minimisation (*Desktop Assessment*)
- Chemical Use (*Desktop Assessment*)
- Peat use (*Desktop Assessment*)
- Climate Change Adaptation Strategy (*Desktop Assessment*)

Community Involvement

- Community involvement in management and development (*Desktop Assessment*)
- Appropriate provision for the community (*Desktop Assessment*)

Marketing

- Marketing and promotion (*Desktop Assessment*)
- Appropriate information
- Appropriate educational & interpretational information

Management

- Implementation of the management plan (Not used)

Criteria names may be abbreviated in this document where space is limited.

2.4. Assessment Accuracy

To maximise consistency and accurate scoring for each site, assessment teams were led by an experienced officer who, in some cases, were also a formal Green Flag Award judge. There was also additional guidance included in the assessment documentation which included previous scores and comments along with the site manager's response from the previous assessment and a list of improvements carried out since the last assessment.

A judging manual was available for new judges which provided information on the process and criteria used, they could also access the Green Flag Award 'Raising the Standard' document from the GFA website. However, new judges primarily received 'training' during the first assessment by the Lead Assessor who explained the process and provided a more practical interpretation of the criteria.

To allow scrutiny to take place, provisional site results were made available to site managers, as soon as possible following the assessment. Site managers were asked to involve friends & community groups (where available) when scrutinising any provisional results. This allowed rectification of any clear judging errors before results were finalised.

2.5. Scoring of Criteria

Each individual criterion was scored out of 10 using the table below.

Score	0	1	2	3	4	5	6	7	8	9	10
Description	N/A	Very Poor	Low Poor	Mid Poor	High Poor	Low Fair	High Fair	Good	Very Good	Excellent	Exceptional

Criteria that did not apply to a particular site – e.g. 'conservation of buildings or structures' on a site where no applicable buildings or structures was present – was scored as not applicable and therefore not included in the total score or average calculations.

2.6. Park Quality Score

Park quality scores were calculated by adding together all the criteria scores and dividing the total by the number of applicable criteria resulting in an average score. This score is then multiplied by 100 to obtain a Park Quality Score (PQS) expressed as a percentage. The maximum score available was therefore 100% for each site.

2.7. Park Gradings

In 2009, bandwidths were introduced to accommodate the natural variance of assessors due to the subjective aspect of the assessments with a 10% variance between assessors deemed acceptable. The bandwidths were reviewed in 2018, and the current grade bandwidths are shown below. All previous data has been retrospectively amended to show the data in the new grading format to enable year on year analysis.

	Grade A	Grade B	Grade C	Edin Min Std	Grade D	Grade E
All Parks & Cemeteries	100%-80%	79% - 70%	69% - 60%	60%	59% - 50%	49% - 0%

2.8. Edinburgh Minimum Standard

In 2009, it was also agreed that there should be a parks quality score that acted as the Edinburgh Minimum Standard (EMS) for parks. As part of the review of bandwidths and gradings in 2018, it was also agreed that a new mark should be set at Grade C (60%+) for all park types.

2.9. Sites

There were a no changes to the parks list in 2024 meaning that 141 parks were to be assessed this year.

Whilst Cemeteries had previously been assessed as part of the programme, it was agreed that due to restructuring, they should not be included in the parks programme.

2.10. Locality & Management Areas

The PQA performance data has previously been grouped by Localities due to the geographical aspects and historic shared management responsibilities for all sites. With the management of parks now overseen by the Parks & Greenspace, this report predominantly provides data grouped by management area to allow closer scrutiny of the data. It is worth noting that whilst the Botanical Services team maintain all or parts of the grounds in Princes Street Gardens, Saughton Park and Lauriston Castle they are included in the management area results and are not listed separately.

2.11. Assessors

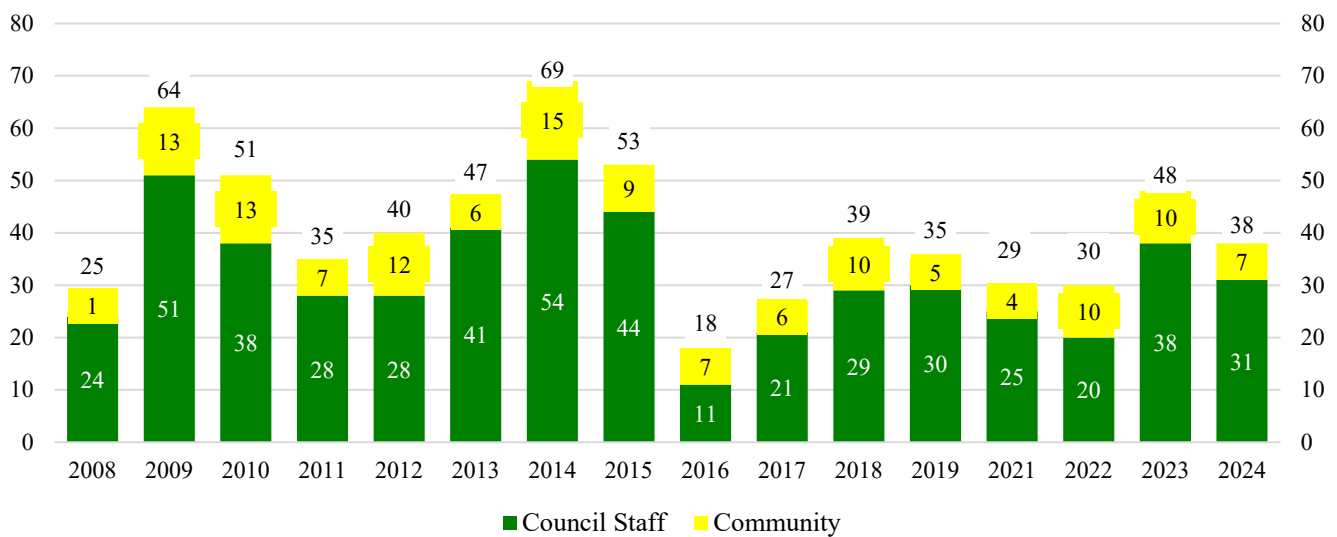

Assessments were undertaken by Lead Assessors (council officers who were either Green Flag Award judges and or experienced parks & greenspaces) who either assessed the park as a solo judge or with the help of assistant assessors (mostly friends of parks group members or other colleagues).

It was agreed at the Forum to try and involve more colleagues in the 2024 assessments to raise awareness and bring some fresh ideas to the park assessments but also to share the workload of assessing 141 parks.

In total, **38** Assessors were used to carry out the assessments in 2024, **10** fewer than in 2023. Since the first assessments took place in 2008, over **150** different assessors have taken part with many being involved for two or more years.

The chart on the next page shows the number of assessors taking part each year since 2008.

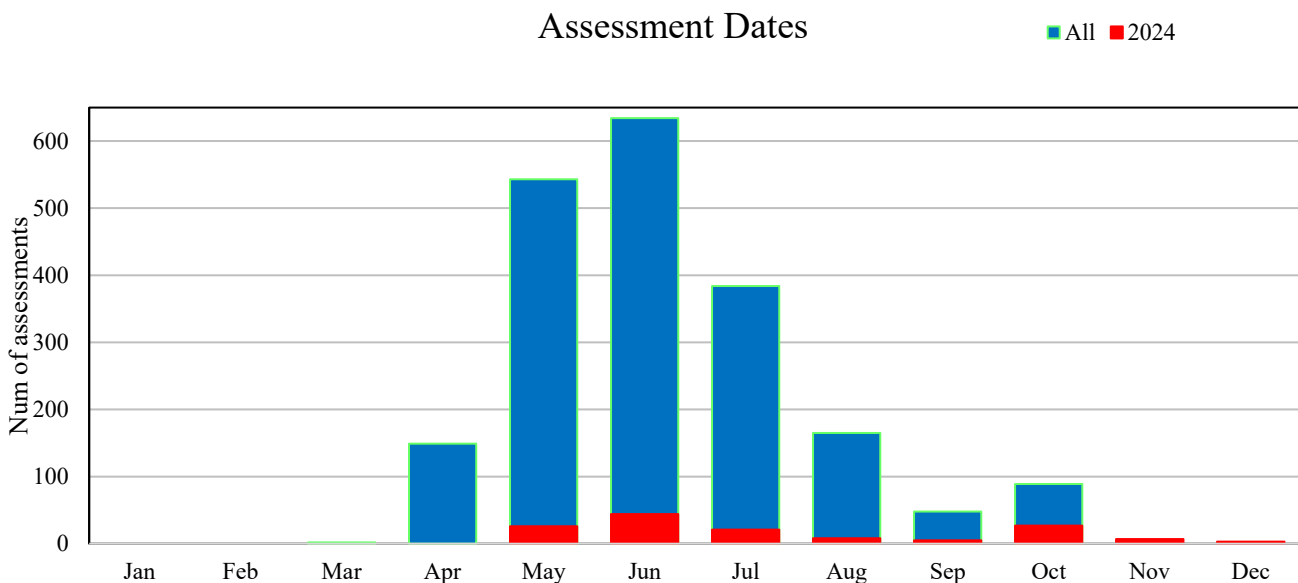

Assessor Totals

2.12. Assessment Period

In 2008, assessments took place in September/October but the Green Flag Forum agreed to move the assessment period to between April and July so that early season colour provided by bulbs etc were evident and recreation grounds were still being used for sport. It also acted as an early warning for parks that were due to be judged as part of the formal GFA scheme and we can use the PQA's as the self-assessment for those parks included in the Green Flag Group Award which has an end of June deadline. However, over the last few years the period has been extended (with the exception of any GFA parks) to allow judges extra time due to increased workloads.

The chart below shows in which months assessments have taken place with the 2024 assessment months shown in red.

3. Performance Results

3.1. Park Quality Scores

The chart below shows the average citywide Parks Quality Score for all years.

The tables below show both the **Locality** and **Management Area** average Parks Quality Score since 2019 including the short term (year on year) and long term (current year average compared against the five previous assessment average) trends.

Grouped by Locality

Area	Parks	2019	2021	2022	2023	2024	LT Trend
North East	32	64% ➡	68% ⬆	67% ⬇	68% ⬆	68% ➡	⬆
North West	44	66% ⬆	67% ⬆	68% ⬆	69% ⬆	69% ➡	⬆
South East	35	71% ➡	71% ➡	70% ⬇	70% ➡	71% ⬆	➡
South West	30	70% ⬆	70% ➡	70% ➡	70% ➡	71% ⬆	⬆
Citywide	141	68% ⬆	69% ⬆	69% ➡	69% ➡	69% ➡	⬆

Grouped by Management Area

Area	Parks	2019	2021	2022	2023	2024	LT Trend
North East	29	63% ⬆	67% ⬆	67% ➡	67% ➡	67% ➡	⬆
North West	39	65% ⬆	66% ⬆	67% ⬆	68% ⬆	67% ⬇	➡
South East	33	71% ⬆	71% ➡	70% ⬇	70% ➡	71% ⬆	➡
South West	27	69% ⬆	69% ➡	68% ⬇	69% ⬆	69% ➡	➡
Natural Heritage	13	76% ⬇	77% ⬆	77% ➡	76% ⬇	77% ⬆	➡
Citywide	141	68% ⬇	69% ⬆	69% ➡	69% ➡	69% ➡	⬆

The table below shows the number and percentage of parks in each **Management Area** that have seen its Park Quality Score improve, deteriorate or remain static compared to last year (short term) and the five-assessment average (long term).

Grouped by Management Area

Area	Parks	Short Term			Long Term		
		Up	Static	Down	Up	Static	Down
North East	29	14 (48%)	4 (14%)	11 (38%)	19 (66%)	0 (0%)	10 (34%)
North West	39	10 (26%)	11 (28%)	18 (46%)	25 (64%)	1 (3%)	13 (33%)
South East	33	19 (58%)	6 (18%)	8 (24%)	15 (45%)	4 (12%)	14 (42%)
South West	27	13 (48%)	5 (19%)	9 (33%)	15 (56%)	1 (4%)	11 (41%)
Natural Heritage	13	6 (46%)	2 (15%)	5 (38%)	7 (54%)	0 (0%)	6 (46%)
Citywide	141	62 (44%)	28 (20%)	51 (36%)	81 (57%)	6 (4%)	54 (38%)

3.2. Gradings

The table below show the number and percentage of park gradings in each **Management Area** in 2024.

Area	Parks	Grade A	Grade B	Grade C	Grade D	Grade E
North East	32	1 (3%)	10 (34%)	13 (45%)	5 (17%)	0 (0%)
North West	44	1 (3%)	15 (38%)	19 (49%)	3 (8%)	1 (3%)
South East	35	3 (9%)	19 (58%)	10 (30%)	1 (3%)	0 (0%)
South West	30	0 (0%)	13 (48%)	12 (44%)	2 (7%)	0 (0%)
Natural Heritage	13	4 (31%)	8 (62%)	1 (8%)	0 (0%)	0 (0%)
Citywide	141	9 (6%)	65 (46%)	55 (39%)	11 (8%)	1 (1%)

The table below shows the number and percentage of parks in each **Management Area** that have seen its grades improve, deteriorate or remain static compared to last year (short term) and the five-assessment average (long term).

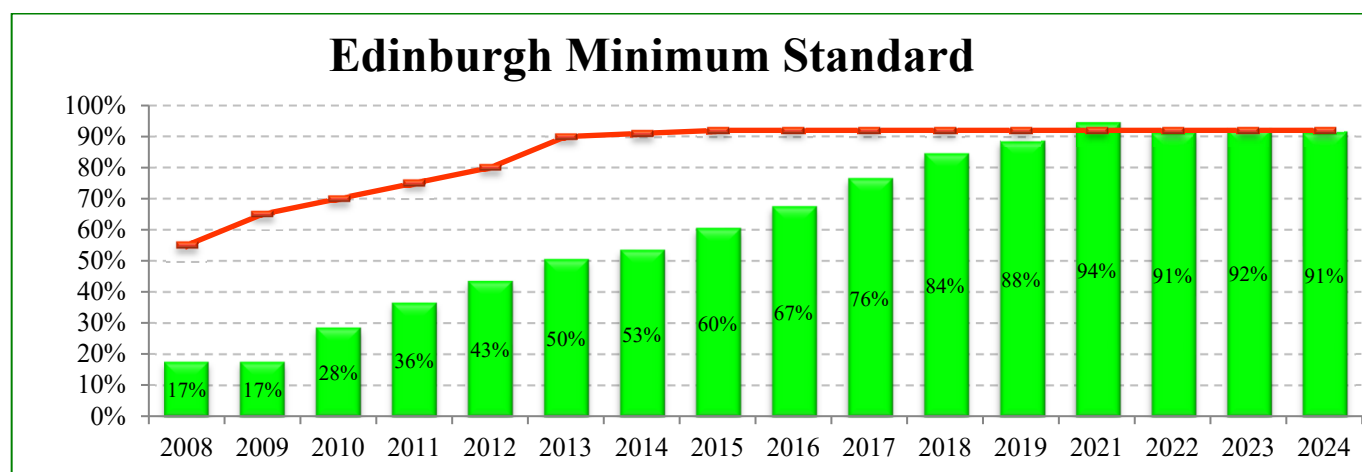

Area	Parks	Short Term			Long Term		
		Up	Static	Down	Up	Static	Down
North East	29	4 (14%)	20 (69%)	5 (17%)	10 (34%)	18 (62%)	1 (3%)
North West	39	2 (5%)	35 (90%)	2 (5%)	7 (18%)	29 (74%)	3 (8%)
South East	33	8 (24%)	25 (76%)	0 (0%)	4 (12%)	24 (73%)	5 (15%)
South West	27	3 (11%)	21 (78%)	3 (11%)	5 (19%)	22 (81%)	0 (0%)
Natural Heritage	13	1 (8%)	12 (92%)	0 (0%)	4 (31%)	9 (69%)	0 (0%)
Citywide	141	18 (13%)	113 (80%)	10 (7%)	30 (21%)	102 (72%)	9 (6%)

3.3. Edinburgh Minimum Standard

It was agreed that there should be a parks quality score that acted as the Edinburgh Minimum Standard (EMS) for parks and the percentage of sites meeting the EMS in each Locality has been set as a performance indicator to drive improvement. As part of the 2018 review of bandwidths, it was agreed that the mark should be set at Grade C (60%+) for all park types with data retrospectively amended.

The target is reviewed by the Green Flag Forum each year and is currently set at **92%**.

	08	09	10	11	12	13	14	15	16	17	18	19	21	22	23	24
Target	55%	65%	70%	75%	80%	90%	91%	92%	92%	92%	92%	92%	92%	92%	92%	92%
Perf	17%	17%	28%	36%	43%	50%	53%	60%	67%	76%	84%	88%	94%	91%	92%	91%

The tables below show the percentage of sites meeting the Edinburgh Minimum Standard in each **Locality** and **Management Area** over the last five assessments. The number of sites meeting the standard along with the number of sites assessed have been included for information.

Grouped by Locality

Area	2019	2021	2022	2023	2024	Target Met
North East	(24/32) 75% ↓	(28/32) 88% ↑	(28/32) 88% →	(29/32) 91% ↑	(27/32) 84% ↓	✗

Criteria average scores are useful in highlighting which aspects are improving or worsening year on year or over a set number of years which can be used to evidence whether strategic actions are having the desired effect.

Over the short term, **10** out of 26 criteria average scores improved whilst **three** fell and longer term, **14** improved and **seven** showed drops.

In total, there were **581** instances where criteria scores improved, **2435** stayed the same and **466** dropped. This information along with the highlighted actions & recommendations could be used to identify areas where attention is needed most.

The table below shows the Short-Term trend (year on year) in each **Management Area**.

Criteria	North East			North West			South East			South West			Nat Heritage

3.5. Highlighted Actions & Recommendations

General actions are identified from the judge's feedback and categorised and aligned with GFA criteria.

The data shown on the next page shows the 2184 actions that were identified from the assessments including the 423 priority recommendations. This data shouldn't be read as the number of parks that the categorised action is recorded against as there may be more than one general action per category.

A more complete list of the actions is available on request.

Action Categories

4 Citywide Results

Listed below are all parks in qualitative order based on the 2024 Parks Quality Score.

Rank	Park 	GFA Park	Mgt	2019	2021	2022	2023	2024	ST Tr	LT tr

5.5.2 Highlighted Actions & Recommendations – Natural Heritage Service

In total, **208** actions were identified through the assessments and the chart below shows number of actions in the top 10 categories.

6 Green Flag Awards

Green Flag Awards are a way of recognising quality parks and greenspaces. The awards are given out on an annual basis and each site must submit an application each year. The scheme also involves a Green Flag Community Award which is to reward quality sites that are managed by the community.

In 2007, the Green Flag Award was trialled in Scotland with Edinburgh taking part along with Dundee. In that year, Edinburgh was successful in achieving two Green Flags (Braidburn Valley Park and Harrison Park). The chart at the bottom of the page shows the number of Green Flag Award Parks achieved since 2007.

6.1 Green Flag Group Award

Since 2011, Edinburgh has participated in the Green Flag Group Award that sees the authority self assess existing sites annually and award a flag where the standards are maintained. However, these sites will also be subject to full or mystery shop assessments by external Green Flag judges. In addition, two peer judges biennially assess the strategy the authority has to managing its greenspaces and assesses the risk of the authority failing to maintain its Green Flag Award parks to the required standard. The last assessment in 2022 returned a successful 'Low Risk' result.

New sites identified for the award will continue to be assessed using the normal judging method of two judges assessing the management plan and undertaking a formal site visit and if successful the site will be included in future group award assessments.

6.2 Green Flag Award 2024 Results

At the Green Flag Forum, it was agreed that **no new parks** would be submitted in 2024 which would allow managers to time to focus on existing sites, therefore **35** sites were submitted for the Group Award.

Following a round of full and mystery shop assessments, all 35 were successful in achieving the award for another year.

Corstorphine Hill Walled Garden achieved the Green Flag Community Award for the 15th year running.

With regards to the numbers of Green Flag Award sites (excluding GF Community and Green Heritage Awards), City of Edinburgh Council ranks 1st in Scotland with 35 out of the 80 Green Flags awarded. and 3rd in the UK with only The London Borough of Hillingdon (67) and The Canal & River Trust (53) having more flags.

6.3 Green Flag Award 2024 Site Results

Full assessments involve judges carrying out a review of management documentation followed by a site visit involving site representatives. Both parts are scored separately and then combined to create an overall score which must total 66 or more to achieve a pass. The final result is returned as a bandwidth.

Mystery shop assessments involve a judge visiting a site unannounced and assessing the site against 18 questions. The judge will grade each question as Green (pass), Amber (advisory), Red (fail) or Not Applicable. The judge then uses the same Green, Amber & Red grading to indicate an overall result.

Where a significant issue is found that would normally result in a red/fail, site managers are sometimes allowed an opportunity to rectify the problem and the result moved to an Advisory/Amber *.

Full Assessments Park Name	Assessment Type	Desk	Field	Total	Overall Result	2024 PQS & Grade
Portobello Community Gdn	Full Assessment	15-19	40-44	66-69	Advisory/Amber*	73% (B)

St Margarets Park	Mystery Shop	18	0	0	Pass/Green	75% (B)
Starbank Park	Mystery Shop	18	0	0	Pass/Green	85% (A)
Station Road Park	Mystery Shop	0	0	0	Pass/Green	72% (B)

**Three sites were not independently assessed in 2024 due to lack of judge availability, instead a self-assessment was undertaken to ensure continuity.

Of the **35** results received, 12 were returned with an advisory/amber warning and three of those required remedial actions to prevent judges recording them as a fail/red. The number of amber warnings increased by two from 2023.

23 sites were given a pass/green, two fewer than last year.

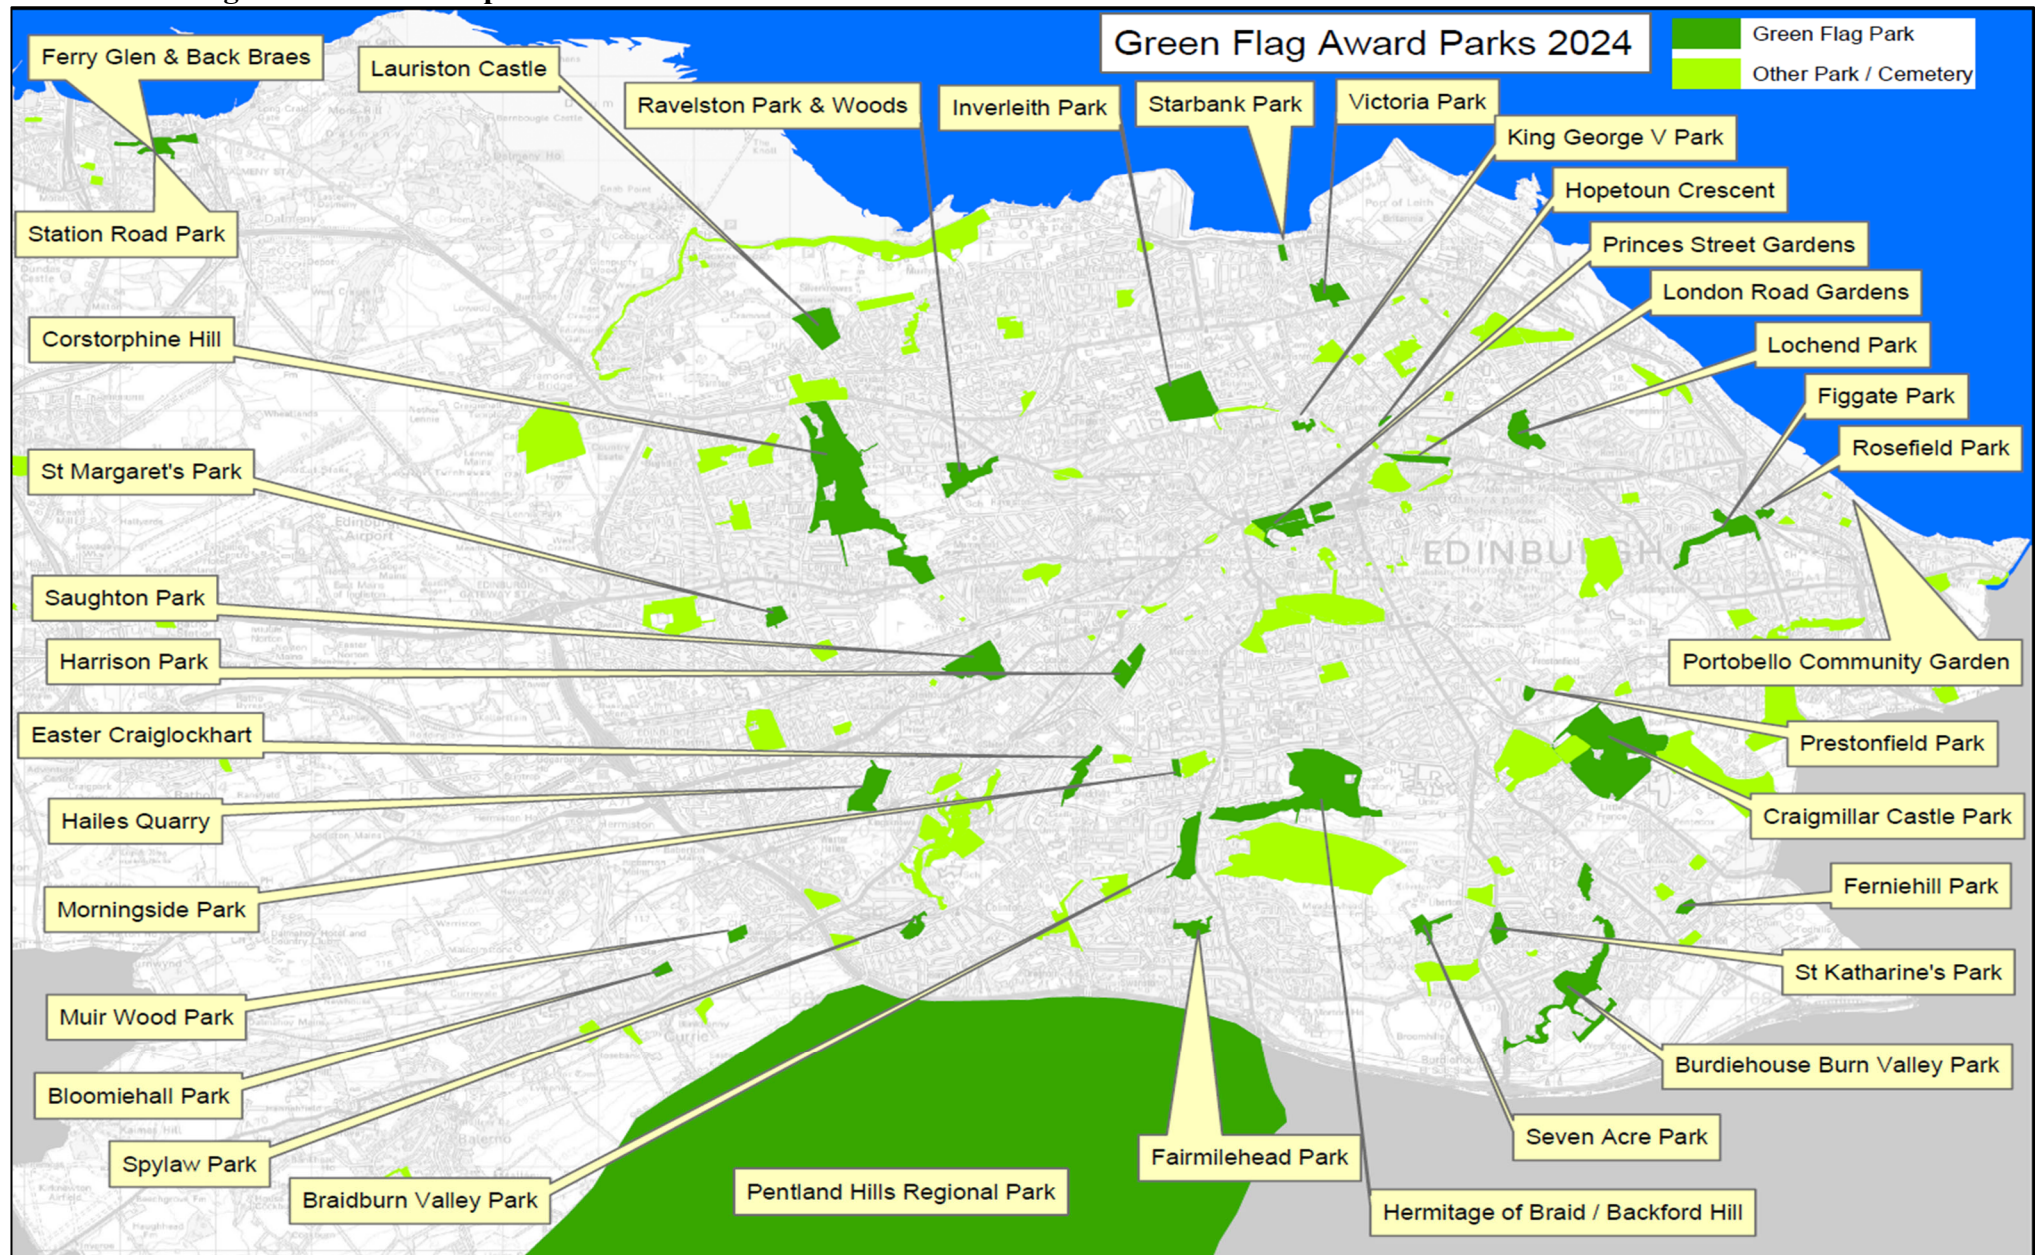

6.4 Green Flag Award Highlighted Issues.

In total **193** highlighted issues were identified by Green Flag judges during full or mystery shop assessments, and which have been aligned to one of the GFA criteria to show where citywide improvements should be targeted.

The chart below shows the number of actions against each of the criteria.
